About This Content

Stay sane...

The Last Breath is the first Chapter for Dead by Daylight. It provides a glimpse of the effect of insanity in its purest and most violent form, as players gets to visit the asylum Crotus Prens. You'll also meet a new Killer, the Nurse, and the Survivor Nea Karlsson.

Wretched minds, screaming in the dark can still be heard late at night. A Nurse with an equally distorted mind as those she treated. A Survivor with catlike movements. And an asylum that nobody left sane...or alive.

The Last Breath is a FREE Chapter for Dead by Daylight and it includes a new Killer, Survivor and a map.

Say Hi to Sally

To work close to pure insanity is something that consumes the mind – warping it into something odd and feral. Sally Smithson’s futile attempts to remain civilized failed, pushing her over the edge, making her “treat” several patients in a much more fatal manner.

Tracking, Finding and Dismembering

The Nurse is a horrid creature with a power called Blink, making her able to teleport between two locations. The Nurse can only teleport in a straight line, but teleporting can be linked – making her move across a larger area.

The Nurse also comes with 3 new Perks, emphasizing on tracking and finding Survivors.

•**Stridor** - The Nurse is more sensitive to the heavy breathing of Survivors in pain.

•**Thanatophobia** - Survivors receive speed penalties to Sabotage, Repair and Healing for each other Survivor that's injured, dying or on a hook.

•**A Nurse's Calling** - Survivors who are healing or are being healed are revealed to you.

Nea From Sweden

Nea had a good upbringing, in a small, rural town in Sweden. She never thought she'd be one of those with baggy pants who's tagging government building in the night.

But being uprooted does something to a human, and her parents weren't that understanding to how Nea's life changed. So Nea fled the "normal" life her parents wanted her to live, and took refuge to the streets.

Staying Under the Radar

Nea is agile and quick. Years on skateboards and duping cops have made her beyond streetmart, and as she's often spending days away from her comfortable and safe home, she's clever than most.

Nea Karlsson comes with 3 new Perks, emphasizing on evasion and speed.

•**Balanced Landing** - Falling long distances doesn't make Nea lose her balance.

•**Urban Evasion** - As Nea is crouching, she's faster than the regular Survivor when she moves.

•**Streetwise** - Nea's consumption rate on items is reduced.

A Place of Screams

Crotus Prenn is a place where poor unwanted souls are gathered. Outcasts who either sought a job or delusional men and women who were in dire need of a straightjacket.

Shock Therapy was the most popular dish to provide to the loyal customers, and ether was often administered among the staff as everyone just tried to hold on to whatever kind of long lost hope there was.

Everyone Is Welcome at Crotus Prenn!

The Asylum is a brand new map for DEAD BY DAYLIGHT.

It's set in the former asylum Crotus Prenn, a place filled shock therapy rooms and rotting beds. Damp mold fills the lungs of those who enter its realms. Inside, it's easy to start questioning everything you thought you knew about your own senses as insanity has marinated the walls.

dead by daylight the last breath chapter

Ok, I played the game for about an hour or so, and I must say I had a fun time. I really liked both Shelters, and Wolf Quest. Until today I didn't even know Untamed : LOAC existed. Because it was cheaper than usual I decided to buy it.

So, what are my views?

The graphics are quite nice, my laptop is not very good, so I couldn't completely enjoy it for I had to turn it to fastest. It kinda reminds me of lif graphics, lif has better water though xD

The gameplay....I'd say it's Shelter and WQ brought together, which is a good thing. You have to find a mate, find a den, give birth to your cubs, name them, protect them from predators and other mountain lions, feed them. Hunting is pretty fun, though on easy mode it seems a little too easy.

Protecting our cubs isn't necessarily the easiest thing in the world, for sometimes they like to wander off, away from the den. I also don't like that when you get attacked by a wolf, your character drops the cub, which makes it impossible to run away. In that moment you're forced to stay and fight the wolf\wolf pack. To me, dropping the cub\pup against our will is one of the most annoying things in such games. I also don't like that if you have a den on that big mountain, and you fall, it takes forever to come back to the top. I went hunting once, I killed a prey that I can't run with, most of my cubs starved.

If you like sand-box and survival games, and you're a big cat lover, then i highly recommend it.

What else can I say? Give you some tips perhaps?

1. Look out for wolves, hunters, and the crazy male that attacks you to eliminate your offspring,
2. You don't need to look out for the cubs, as long as you're absolutely sure that no predator is near enough to smell them. The only problem then is that you might have to carry them one by one a long way.
3. If the vultures, gathering and eating your prey, are a big problem to you, then I recommend putting your kills underneath your den "roof". They can't reach it there.
4. Attack while carrying a big prey and rushing to get it to your cubs. It will make it faster.. Terra Mystica is the best board game ever, but this UI is so horrifically bad that I'd rather play anything else.

Every important bit of information is hidden behind a side panel, and many don't look like the real game (cult track and player boards, for example). The game log doesn't work well at all. The AI is really bad.

I did like the music and the colors.

If you have IRL friends, buy the physical board game. Otherwise seek an online alternative to this poor effort.. Highly recommended! I am completely hooked despite that the game is very much still in development. The devs have been able to provide enough content to keep us interested. It is not only about football - it is about building a solid economy and a vibrant and friendly community (who to a large portion have been in exile since FML was cancelled 5 years ago). The money you put into this game quickly becomes a very very low hourly fee and I really hope the game will survive and prosper to become the wonderful product it has the potential to be.. Terrible Heat issues caused by game crashes constantly,

Wolves run in from across the screen\world\map

Needs work, looks promising but it really is in alpha state not beta state.. like dinosaurs? then these paints is for you one of the better paint dlc\00b4s out there. So why is the 'Civil War' and the 'Ant-Man' DLC not part of the Season Pass?.

<https://www.youtube.com/watch?v=ZTB7z4SP7wE>. Okay, this game is far from perfect BUT it's still a lot of fun.

[It has been developed by few people and they are all smart and funny guys, they made the game with passion and it was the only way to improve their professional skills.](#)

[Give this game a shot.. I'm a new vive user and bought this game in a bundle. Its good arcade fun and differnt to other vrgames ive played so far.](#)

[im only on world 3 \(as i suck at the moment\) but looks like i have a long way to go to unlock all the planes and worlds etc.](#)

[Overall its great game at a great price!](#)

I would happily pay for this game to not show up in my library.. The game started out nice enough. Point-n-click adventure game. Not the best, but enjoyable. Then I got to the part where you need to stealthily get by a guard and his dog. A stealth part in an adventure game. Now, if implemented properly, this wouldn't be that bad. Unfortunately that is not the case here. The rules of how they can detect you are not explained nor are they obvious. Depending on where you are, Holmes may or may not be able to go where you click. Even after checking out some walkthroughs and knowing what I was supposed to do (which didn't really make sense in the first place) I was not able to get through this stage. Quite a shame since from what I understand, that's about halfway through. Oh well.. amazing story, i didnt expect it, wishg there were more vr games like this. construct stuidos, man nice job. This might be the worst game I've bought. First of all, When I entered the game and changed resolution(1920x1080), the game just crashed for many times. After I get in the game progress hardly , just crash, And Guess what? When I changed language option, It crashed again. After I leaved the game and entered again, the option all be reset.

And I tried get in several time, my profile is goneIt barely can played in the game, even though deleted the game and download again...same problem.

It seems I can run the game normally when I use the original resolution option(not very sure), but it hurt my eyes.....

I've play so many games and Don't encounter the situation. It exceed the refund deadline, or I'll refund it to get back my money.. Wygl\u0105da to do\u015b\u0107 zabawnie, gdy Razi\u0119l zamiast zwyczejnie zab\u0119 swojego przeciwnika i wch\u0142on\u0105\u0107 jego dusz\u0119 u\u017cywa r\u00f3\u017cnego rodzaju broni. DLC podmienia same modele postaci, ale nie spos\u00f3b walki. W opisie nie jest nic o tym wspomniane, jednak bra\u0142em pod uwag\u0119 tak\u0105 mo\u017cliwo\u015b\u0107, wi\u0119c nie jestem specjalnie zawiedziony. Same postacie s\u0105 jak najbardziej na plus, bo uwielbiam seri\u0119 Legacy of Kain. Zadbano o dialogi - postacie m\u00f3wi\u0105 swoje w\u0142asne kwestie z odpowiednim aktozem, wi\u0119c nie ma takiego bu**sytu, \u017ce widzimy Raziela z g\u0142osem Lary Croft. My\u015b\u0119, \u017ce fani serii powinni kupi\u0107 to dlc. Nie ma co specjalnie narzeka\u0107 na ten brak specjalnych atak\u00f3w.. This game is good but not the best game released by PopCap. I think the game has good gameplay, but I can really get 30-60 minutes of game time out of Zumba Deluxe. But like most PopCap, you should pick it up, unless you don't like puzzle games.
